

CREATE.
UPDATE.
PREVENT.
PROTECT.

MyLifeID is a healthcare information management company that enables individuals to have their Comprehensive Patient Profile including medical, health and fitness records with them wherever they go.

Having their health information empowers Participants to seek health treatment for any reason under any scenario from whomever they want even in other countries as their records can be translated into multiple languages. This solution is delivered with options for online, offline portable or both methods.

THE MyLifeID HEALTH AND WELLNESS PROGRAM

The MyLifeID Health and Wellness Benefit Program is designed to accomplish a variety of goals:

- Provide a benefit the Participant can use wherever they may be
- Provide additional health safety measures making the Participant more comfortable
- Help organizations return people safely to the workplace
- Enable health policy compliance

WHY SHOULD I HAVE A HEALTH AND WELLNESS BENEFIT PROGRAM?

MyLifeID understands that each person in your organization plays a key role in its success. Therefore, implementing a health and wellness program in the workplace is essential to improving individual's lives and an organization's stability.

The MyLifeID Health and Wellness Benefit Program's goal for individuals is to:

- Empower better health
- Reduce out-of-pocket expenses
- Improve individual wellness

Organizations can realize benefits from a health and wellness program such as:

- Reduced absenteeism
- Increased productivity and morale
- Lower healthcare and other insurance premiums
- Greater talent retention

ORGANIZATION RESPONSIBILITIES

As the organization, you determine the program level you want to provide at what cost, if any, to your participants. Examples include:

- You can provide a Bronze level for part-time participants and a Gold level for full-time participants.
- You decide if you want to pay the entire fee or split the fee with participants like health insurance where perhaps you pay 80% and the participants contribute 20%.
- You are responsible for making the entire payment for the program regardless of whether the participant contributes or not.

We will assist you in preparing any COVID-19 testing policy and confirm all compliance with HIPAA, GDPR, IPA and any other privacy laws. A minimum 12-month contract is required.

This program is not based on the health of each person

- **No risk/health assessments required**
- **Costs are not based on participant health risks**
- **No pre-existing condition exemptions**
- **No age restrictions**

PROGRAM INCLUSIONS

The program includes a website where participants can aggregate all their health information. This can include data from other devices such as the Apple Watch and fitness trackers. It can be accessed via web or mobile browser and can be translated into multiple languages for international use.

Store and track unlimited health information over time. Provide access to loved ones in case of an emergency.

WHO ARE PARTICIPANTS?

A participant is anyone an organization wishes to offer this program to. It can be employees, contractors, owners, volunteers, advisors, family members of these groups, team members, clients, members of loyalty programs and others.
