Scholar Compass helps clients prepare for higher education and claim a portion of the more than \$2 billion in educational grants, scholarships and endowments that go unused every year.

For more than 12 years, Scholar Compass staff has been helping make college an affordable and useful value for everyone. Scholar Compass assists students in preparation for higher education through our proprietary mentoring and marketing methods. We help students find the right programs for their goals and achieve admission.

WHAT IS THE COLLEGE ADMISSIONS SERVICE?

Scholar Compass recognizes that students from around the world seek higher education opportunities. We assist students in navigating every aspect of the admissions process--from identifying the ideal academic program to assisting in the preparation of application materials. Scholar Compass offers personalized consultative and editorial services-- even after acceptance-- to help each student continue to succeed.

HOW DOES THE COLLEGE ADMISSION SERVICE WORK?

We first work with the student to understand their interests and goals. We then help them to position themselves and build a competitive application, offer writing instruction, and arrange college interviews. We often provide additional recommendation for students to enhance their image to the target programs. We know which items are of key importance to which schools enabling us to tune each student's application for each particular program and school to increase the success of admission.

- Educational planning and strategic academic goals
- List of schools based on the candidates desires and abilities
- Write, edit and review essays for 4 schools, chosen from the school list
- Assemble admission application packages
- Review acceptance/academic career path

HOW DOES THE SCHOLARSHIP SERVICE WORK?

We match the student with scholarships based on their academic interests, background and other variables from their profile. Our proprietary search process finds more scholarships than many other services or online searches and our experience enables us to know how to pitch the student to the appropriate committee.

We take an interactive role in the process and are not just administrators like many other companies. We then help guide the student with their essay and submission packet. This program will also generate materials beneficial to the admissions process.

- Educational planning and strategic academic goals
- Review financial options/ how to pay for school
- Search and identify a list of scholarships based on the candidates desires and abilities
- Begin writing, editing and reviewing essays for 4 scholarships, chosen from the scholarship list
- Assemble scholarship application packages
- Review awards and requirements for acceptance
